

ASSIGNMENT OF STUDENTS TO CLASSES

Placement of transfer students into the Bristol Warren Regional School District (with the exception of those students who graduate from local parochial schools and normally matriculate into the public secondary schools) will be based upon the records received from the sending school, upon teacher observation, and on achievement tests and/or other tests the appropriate principal and guidance counselor may prescribe. Any placement other than that concurring with the sending institution's recommendation will be reported immediately to the superintendent.

ADOPTED: January 24, 1994
