SCHOOL BUILDING ADMINISTRATION

Each school in the school system will be under the general supervision of a principal who reports to the superintendent.

Within their respective schools, principals will have authority over certified and classified employees and will be responsible for the maintenance of order and the conduct of students. They make the necessary rules, subject to the superintendent's approval. The Committee considers the primary object of school building administration to be the facilitation and improvement of the educational program.

Principals will submit reports and maintain records as directed by the superintendent.

ADOPTED: June 15, 1992
