

STUDENT TEACHING AND INTERNSHIPS

The School Committee favors providing opportunity for student teachers at all levels to obtain practice teaching situations. Experienced teachers will be encouraged to prepare themselves for this service by completing the critic teacher courses offered by teacher-training institutions.

To be accepted as a student teacher in the Bristol and Warren schools, the student must be sponsored by a teacher-training institution accredited by the state department of education for courses leading to certification.

Critic teachers may serve in this capacity for only one half-year term in any school year. The sponsoring institution will be responsible for remuneration to a critic teacher for services rendered the student teacher.

Adopted: January 24, 1994
